

SlideShare in PowerPoint Presentations

SlideShare is the world's largest community for sharing presentations. You can upload presentations to share with other or download for your own use.

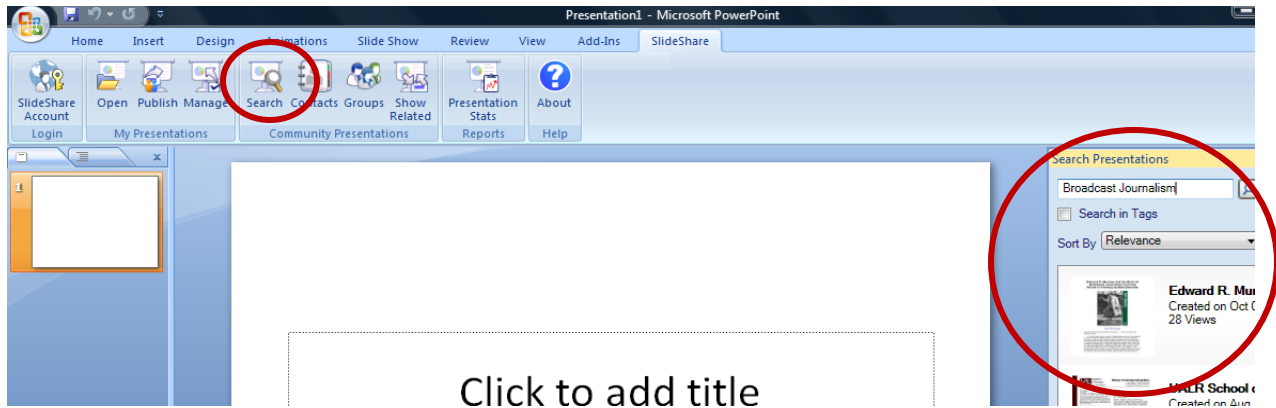

1. Go to www.slideshare.net and create a free account. You must have an account in order to upload or to download the SlideShare plug in for PowerPoint.
2. Go to the bottom of the page and click on SlideShare in PowerPoint. This plug in works in conjunction with Microsoft. You must have Office 2007 installed.
3. Follow the directions for downloading the SlideShare Ribbon.
4. Note the new tab once the SlideShare Ribbon is installed.

5. Click on the SlideShare tab. You will now see the new ribbon. Click on SlideShare account and enter your user name and password. The demo note will disappear.

6. You are now ready to search for presentations. Click on Search and type in a subject (see illustration below).

7. When you find a presentation you would like to view, double click to download the presentation.
8. You are free to edit and use these presentations as needed.
